**Summary.** The student's youth holds special position in social structure of society. They differ high level of aspiration to personal professionally self-affirmation, the creative potential, active interest to practical participation in social transformations of the country. Life of modern students depends on a set of factors and study is interfaced to overcoming of organizational, psychological, moral difficulties. The authoress considers problems of patriotic education of students in modern conditions.

**Key words:** patriotism; fatherland; principles education; experience of the organization of educational work.

One of the country's main functions is to predict development of all the areas of population. There are many problems appeared in investigating the development of Science and Upbringing youth in XXI century. Nowadays Education theory interests a great deal of scientists. But after Soviet Union disintegration the theory was thought as fun, therefore this term was out of use as communist terms. The definition and role of the theory is hard to define in this century. That is why, the educational theory is a system in human preparation to social and cultural standards. According to the scientists opinions, education is a mechanism which keeps history of the population. The education of a human subscribes pedagogics.

Academics should not only be professional source of information, but also a mediator between student and culture can have a positive impact on formation and the formation of students, not only as professionals, but also future as the country's intelligentsia. Professional, civic and patriotic duty of faculty members must be equally specialists, but also teachers. Therefore, education of students – cause of all the teaching staff.

Educational activities in the university should be directed to the formation of an ethical, spiritually and physically developed healthy person – citizen and patriot capa-

ble high-quality professional activities and responsibilities for decisions; formation of students' social competences, moral and spiritual values and needs; creating conditions for intellectual and creative fulfillment personality, instilling in students such important personal qualities, as hard work, organization, discipline, responsibility.

Organization of educational work experience of higher education institutions allows us to formulate the principles of this sphere of the university, such as the principle of humanization, the principle of professional orientation, the principle of bringing up training, the principle of systemic; poly subject principle, the principle of democratization; voluntary principle, the principle of incentive.

On the issue of education of the student as a citizen and patriot integrated country patriotic, legal, civil, international, political, family upbringing. Especially patriotic education today – a systematic and purposeful activity on formation at the University of students of patriotic consciousness, feelings of loyalty to his native land, readiness to perform their civic duty and constitutional duty to protect the interests of the Motherland [1, p. 26–53].

In his speech at the XII session of the Assembly of Peoples of Kazakhstan President of the Republic of Kazakhstan

Nursultan Nazarbayev said: «This is love their homeland and the earth, great respect for its history and culture, faith in each own strength and cohesion of the whole society. This is a high sense of ownership and responsibility for the history of the future of their country, which is being built today. This pride in the success of each Kazakhs, and the desire to achieve heights in his field, whatever it nor consisted.

And this success should devote every homeland to glorify it, to raise its image in the world. Patriotism should be formed joint efforts of the whole society, especially among young people in our children. Obviously, the success and international recognition of each of our citizen – is invaluable capital pride and heritage of all Kazakhs. These examples need to raise the spirit of the nation! To be patriot of my homeland is to have Kazakhstan in my heart. I urge you to this» [2].

At the XVI session of the Assembly of People of Kazakhstan in October 2010, Leader of the Nation Nursultan Nazarbayev said: «True patriotism lives not in loud words, but in actual cases, responsible actions. I convinced that the criterion of Kazakhstan patriotism should be productive and creative work for the benefit of the country and for the benefit of each» [3].

New Message President N. A. Nazarbayev emphasized: «Our main goal in this direction is simple and clear: we must preserve and strengthen social harmony.

This is an indispensable condition our existence as a nation, as a society, as a nation ... We must cultivate our children as new Kazakhstan patriotism» [4].

In the context of understanding the origins of Kazakhstan patriotism The President noted that the foundation of Kazakhstan patriotism it equality of all citizens and their overall responsibility for the honor of the motherland. Ability to implement this priority – is responsible every citizen trust in government and to each other, confidence Kazakhs in the future.
