THE ENTERING TEST FOR CLASS 4 BY M. BIBOLETOVA

O. N. Vershinina

*Teacher of English,
Secondary State School № 7,
Mariinsk, Kemerovo region, Russia*

Summary. This test is close to the format of the Unified State Exam. It has great advantages over the traditional form of testing knowledge. It helps to know the knowledge level of students after summer holidays. It gives the teacher the opportunity to determine how well students learned academic material and make appropriate adjustments to the learning process. This test contains main topics and Grammar rules which students had been learnt during the last school year. The tasks are interesting and give the opportunity to repeat all material and get ready to know and understand new information. Teachers need not look up suitable tasks and think about the marks and keys.
